## INCLUSIVE EDUCATION FOR ALL

### A series of events 7-11 December 2009

Inclusive education for some but not others is simply not inclusive education.

Join us on one or more of these exciting events, hear inspiring accounts of what can be done and add your voice to that of others wanting to develop more inclusive schooling for all young people.

# INCLUSIVE EDUCATION FOR ALL

CSIE is delighted to announce the forthcoming visit of Jackie Bajus and Laszlo Galambos, senior officers of the Hamilton-Wentworth Catholic District School Board, Canada, which has been providing inclusive education for all children for 40 years. Every child who lives within this local authority's boundaries is offered a place in a mainstream school. CSIE has invited these officers to support the development of more inclusive provision in our country, following the June 2009 announcement confirming the government's commitment to "continuing to develop an inclusive system where parents of disabled children have increasing access to mainstream schools and staff, which have the capacity to meet the needs of disabled children."

Jackie Bajus and Laszlo Galambos will be in England from 7 to 11 December 2009 and will be giving open seminars in a range of locations and participating in CSIE's conference in Manchester. These events will be of interest to local authority officers, parents, teachers, academics and all others who want to develop inclusive provision for all children and young people in mainstream schools.
